Lagos, Nigeria (Open to remote work and relocation)

PROFESSIONAL SUMMARY

Computer Engineering graduate and Front-End Web Developer with 8 years of Mathematics teaching experience across primary and secondary levels (2015–2023), and a growing portfolio of production-ready web applications. Founder of MKO Global Business Estate — a CAC-registered web solutions and digital services company currently delivering full-stack client projects in Ado-Ekiti, Nigeria. Combines the analytical precision of an engineer, the communication clarity of a seasoned educator, and the hands-on problem-solving of a developer who builds for real people and real businesses.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks: React, TailwindCSS, Bootstrap

Tools: Git, GitHub, VS Code, Chrome DevTools, Netlify, GitHub Pages

Backend: Supabase (Auth, REST API, RLS), Paystack, Web3Forms

Concepts: Responsive Design, UI/UX Fundamentals, API Integration, CRUD Operations

Education: Curriculum Design, Virtual Teaching, LMS Platforms, WAEC/NECO/JAMB Prep

PROFESSIONAL EXPERIENCE

Founder & Lead Front-End Developer

2024 – Present

MKO Global Business Estate — Ado-Ekiti, Nigeria

CAC-registered web solutions and digital services company

- **Client Delivery:** Designed and deployed Josephine's Scents — a full-featured perfume e-commerce platform with Supabase authentication, Paystack payment processing, a loyalty rewards system, and WhatsApp order notifications.
- **Active Development:** Currently building the CICI Exam Registration Portal for Christmark Int'l Schools — a full-stack system on React, Vite, Supabase, and Paystack handling candidate registration and payment for WAEC/NECO/WAEC GCE examinations.
- **Brand & Identity:** Developed company website, visual identity, and service offerings spanning front-end development, UI/UX design, and digital consulting for small businesses.

Mathematics Teacher — Primary & Secondary

2015 – 2023

Christmark Int'l College, Lagos

Primary 1 – SS3 | Mathematics, Further Mathematics & Quantitative Reasoning | 8 Years

- **Full-Range Teaching:** Delivered Mathematics across 8 consecutive years from foundational primary numeracy through SS3-level algebra, geometry, trigonometry, statistics, and calculus — the full Nigerian secondary curriculum.
- **Examination Results:** Prepared secondary students for WAEC, NECO, and JAMB Mathematics with consistent improvement in pass rates and performance scores across examination cycles.
- **Technology Integration:** Incorporated digital teaching aids, screen-based instruction, and interactive tools into lessons, building students' readiness for technology-enhanced academic environments.
- **Applied Mathematics:** Connected abstract curriculum content to real-world engineering and computing applications, significantly improving student engagement and long-term retention.
- **Assessment & Reporting:** Tracked individual student progress through regular assessments, delivered targeted feedback, and reported performance insights to parents and school administrators.

Student Industrial Trainee

May – Oct 2023

Bureau of Information & Technology, Ekiti State

- Assisted in computer system setup, configuration, and troubleshooting across departmental workstations.
- Participated in hardware maintenance, LAN networking setup, and routine IT support tasks.

Youth Mentor & Programme Coordinator

2023 – 2024

Community Development Organisation, Iworoko Ekiti

- Coordinated a team of executives across multiple community branches and planned the first-ever large-scale Zonal Youth Convention.
- Mentored teenagers through personal development workshops on leadership, growth, and life skills.

PROJECT EXPERIENCE

Josephine's Scents — Perfume E-Commerce Platform

Live: mkoale.github.io/Josephines-scents | Repo: github.com/MKOale/Josephines-scents

Stack: [HTML5](#) · [CSS3](#) · [JavaScript](#) · [Supabase](#) · [Paystack](#) · [Web3Forms](#)

- Built a production-ready single-file e-commerce app covering the full purchase journey: product browsing, cart management, Paystack checkout, and WhatsApp order notifications.
- Implemented Supabase-backed user authentication with cross-device login sync, a loyalty points economy (Silver/Gold tiers, daily games, promo countdowns), and an owner dashboard secured behind a triple-tap passcode.
- Handled edge cases including image URL normalisation for Google Drive/Imgur, GIF/video lookbook lightbox, flat-rate delivery logic, and a full password reset flow.

Movie Database Application

Live: moviedata-base-app.netlify.app | Repo: github.com/MKOale/movie-database-app

Stack: [HTML5](#) · [CSS3](#) · [Vanilla JavaScript](#) · [Third-Party REST API](#) · [Netlify](#)

- Developed a responsive movie search platform with real-time API queries, dynamic content rendering, and a user-friendly search interface — built with zero dependencies.
- Optimised for performance and clean UX; deployed and continuously served via Netlify.

Personal Portfolio Website

Live: mkoale.github.io/ale-portfolio

Stack: [HTML5](#) · [CSS3](#) · [JavaScript](#) · [GitHub Pages](#) · [Web3Forms](#)

- Designed and built a single-page portfolio with editorial aesthetic (Playfair Display + DM Mono), scroll-reveal animations, skill progress bars, stat counters, and a certificate lightbox.
- Features dark/light mode toggle, a functional contact form via Web3Forms, MKO Global Business Estate branding, and a 404 redirect for GitHub Pages compatibility.

Interactive Quiz Platform

Repo: github.com/MKOale/ALX_Simple_Quiz

Stack: [HTML5](#) · [CSS3](#) · [JavaScript](#)

- Built a configurable quiz app with scoring logic, real-time answer feedback, and smooth DOM transitions.
- Focused on accessible UI design and clean, readable code as part of ALX Front-End programme deliverables.

To-Do List Application

Repo: github.com/MKOale/dynamic-to-do-list-js

Stack: [HTML5](#) · [CSS3](#) · [JavaScript](#) · [LocalStorage API](#)

- Created a fully dynamic task manager with complete CRUD operations, persistent data across sessions via LocalStorage, and a responsive interface with real-time state updates.

EDUCATION

B.Eng — Computer Engineering

February 2026

Ekiti State University, Ado-Ekiti

CERTIFICATIONS & AWARDS

- Front-End Web Development Certificate · ALX Africa · 2025
- Professional Foundations Certificate · ALX Africa · 2025
- Programme Certificate · Deutsche GIZ · 2022
- Mentorship & Programme Coordination Recognition · Community Leadership Award · 2024

SKILLS

A technically precise developer and natural communicator who brings discipline, rigor, and creative instinct to every project. Whether shipping production code, leading a team, or breaking down a complex idea for a non-technical audience, I hold myself to an exacting standard of detail and follow-through — and I bring the same drive independently as I do collaboratively. Eight years in the classroom have made me a stronger engineer: I build for people because I understand how people learn.
